Terms of Service

Last Updated: April 2026

1. Nature of the Platform

   RentRight is a technology infrastructure provider. We facilitate the connection between Tenants, Landlords, and Admins. We are not a party to any lease agreement. Any contract entered into is strictly between the User and the Landlord. We do not act as an estate agent as defined under Nigerian law.

2. User Responsibilities & Conduct

   Verification Accuracy: Users must provide valid data. Our /api/landlord-verifications process is a preliminary check; we do not warrant the absolute truth of any user's identity or the physical condition of a property.

   Security: You are responsible for the confidentiality of your JWT session tokens and OTPs. RentRight is not liable for unauthorized access resulting from user negligence.

   Compliance with Local Law: Landlords specifically agree to comply with the Lagos State Tenancy Law (and other regional equivalents), including restrictions on collecting rent in excess of one (1) year from new tenants.

3. Audit Logging & Investigations

   To maintain platform integrity, we maintain detailed Audit Logs of all actions (listings, deletions, bookings). In the event of a reported fraud or "double-allocation" of a property, RentRight reserves the right to share these logs with the Nigeria Police Force (NPF) or the Economic and Financial Crimes Commission (EFCC) without prior notice to the user.

4. Limitation of Liability & Indemnity

   Intermediary Immunity: You agree that the Developers are not liable for property defects, "Omonile" disputes, or breach of contract by any party.

   Force Majeure: We are not liable for service interruptions caused by factors beyond our control, including but not limited to: Nigerian ISP failures, national power grid collapses, or sudden government regulatory bans.

   Financial Cap: Our total liability for any claim shall not exceed the total fees paid by you to the platform in the preceding six (6) months.

Privacy Policy

1. Data Collection & The NDPA 2023

   In compliance with the Nigeria Data Protection Act (NDPA) 2023, we collect and process:

   - Identity Information: Name, Phone (verified via OTP), and Government IDs (NIN/BVN) for the Landlord Verification route.
   - Technical Data: IP addresses and device fingerprints (via helmet and session management) to prevent "rate-limiting" abuse and DDoS attacks.
   - Media Assets: Property images/videos stored via Cloudinary.

2. Use of Data

   We use your data to:

   - Facilitate the rental "matchmaking" process.
   - Maintain Audit Trails for security and dispute resolution.
   - Improve system architecture (analyzing backend performance).

3. Third-Party Disclosures

   We do not sell your data. We disclose information only to:

   - Cloud Infrastructure Providers: (MongoDB Atlas, Cloudinary) for functional storage.
   - Law Enforcement: When presented with a valid warrant or in cases of suspected "Advance Fee Fraud" (419).
   - The Counterparty: Basic profile details are shared between Tenant and Landlord only once a booking request is initiated.

4. Data Retention & Your Rights

   - Retention: We retain transaction and audit data for up to seven (7) years to comply with FIRS (Federal Inland Revenue Service) auditing requirements.
   - Rights: Under the NDPA, you have the right to request access to your data or its deletion, provided such deletion does not conflict with legal "Audit Log" requirements for ongoing transactions.

5. Security Protocols

   We employ industry-standard encryption (JWT), OAuth hashing via Passport.js, and automated rate-limiting. By using this platform, you acknowledge that no internet-based system in Nigeria or elsewhere is 100% immune to breach, and you provide your data at your own risk.

By checking "I Agree," you acknowledge that you have read and understood these terms and agree to be bound by the laws of the Federal Republic of Nigeria.
